- environmental conditions

Our offer

- feasibility studies
- estimation of investment and operating costs
- delivery of catalysts (incl. steel work, assembling)
- troubleshooting
- contact with regional authorities

application examples

food, drink and milk industry

bio-filter, bio-scrubber, bio-reactor
 filtration, adsorbtion, nonthermal plasma
 TO / KO

colors | varnishes | print

TO / KO
 adsorbtion, TO / KO

chemistry | semiconductor industry

adsorbtion / chemisorption
 TO / KO

glass | cement | sinter

dedusting, TO / KO, NO_x removal

odour

bio-filter, bio-scrubber
 nonthermal plasma / photooxidation
 adsorbtion
 TO
